### Escaping from Submarines.

The tests to which the new "lung" device were put off Key West this week indicate that at last a practical method of escape from a sanken submarine has been found. There can no longer be doubt that the members of the crew of a submarine sunk in water of mederate depth have in the new device a means of escape to the surface.

Three times, Tuesday, the S-1, which is being utilized for experimental purposes, was submerged to a douth of forty feet with Lieutenant C. B. Momsen and Chief Turpedothe two came to the surface without experiencing any physical hardship.

As the water began filling the compartments Kalinoski donned his "lung" and when the submarine had reached the bottom he east off and soon appeared on the surface. none the worse for his experience. Then, befors the compressed air chamber in which Lientenant Momsen waited was filled, be, 100, donned his "limg" and floated to the tap. Their first escape was from a specially constructed hatch, but later they left from the motor room and the torpedo room.

The following day the tests were repeated at a depth of seventy-six feet and resulted as successfully as the day before,

Lieutenant Momsen, who, with Chief Gauner C. L. Tibbals and Civilian Lugineer Frank Hobson, Invented the device, ante of the experiences of the two on the orean hot-

Before the week is over, it is expected that tests will be made at depths ranging from seventy-six to 110 feet, and if these prove as successful as the preceeding ones, there will be assurance against repetition of such horrors as have occurred as the result of salemarines being ran down by other versels in the comparatively shallow waters of rivers

### To Regulate Poultry Sales.

(mr memory goes back to a time wash a ine chicken could be purchased for a diaster. Today the butcher will charge \$2.25 for a bloken of the same size, and there is a bosellathy that the cost may be given another hoost or two, not so much because the cost of raising chickens is going up but rather because of the possible trouble and expense enrafted by the transferring of its own rehip. . S And what is true of chickens is also true of nickers, guese or any other poultry utilized for food burposes

For the projection of farmers and other raisers of poultry from poultry thieves, Representative Arthur H. Morton, of Proble county, has introduced a bill in the Onlo house, which, after the customary preamble of such bills, reads.

"Section 1-Back owner of poultry, who envages in any sale, conveyance, transfer, gift, exchange or transaction in which the title of such poultry paracs, shall execute in the presence of two witnesses 'bill of sale' to duplicate, and deliver the same to the corporation, partnership, a sociation or person purchasing, receiving or obtaining such noultry, at or before such sale, conveyance, transfer, gift, exchange or passage of title, such bill of sale shall contain a description of the properly transferred, and a statement of how the transferer obtained title thereto. "Rection 2-Each buyer, nurchaser, transfered or person receiving or obtaining poultry,

shall obtain from the owner, vendor, or person conveying or transferring such poultry, the hill of sale in duplicate as provided for in section I of this act.

"Section 3-Each buyer, purchaser, transferen or person receiving or abtaining poultry shall keep a record of such transaction as to number, kind, breed, or other characteristics,

"Section i-Whoever violates any provision of this act shall upon conviction be subject to a fine of not less than \$35 for first offense and a fine of not less than \$100 for cach subsequent offense."

In the event that the bill is enacted into law, which would be a piece of stupidity of which we can hardly believe our general as sembly would be enpuble, it would mean that the purchase of poultry of any kind would he a rather complicated proposition. As no distinction is made in the bill between dead and live poultry, it would, it enacted into a law, apply not only to sales by the one raising the poultry, the middle-man and the retaller, but to the consumer as well. Each selled would have to execute a bill of sale in duplicate and make a record of the sale, Asauming that the added expense would end here, it would mean a considerable advance in the price of poultry all the way down the line, which naturally would be added on to the price of the fowl. In addition to this there would be the matter of the two witnesses. Would the seller be expected to provide the witnesses, or would the good housewife, who went down town to get a nice fat hen to slew with noodles, have to lug a couple of withesses along?

And surely the aftermath of the passage of the hill would be bound to show a number of patriots serving as inspectors to see that the records of sales were being properly maintained.

Happily for the public, not all the fool proposals are enarted into laws.

### Are Doctors Living Longer?

BY ROYAL S. COPELAND, M. D. With young people the thought of death is enrely permitted to enter the mind. As we grow older there is increasing interest in the oblining

I confess I never fail to run over such lists of casualties in the medical profession. In each of the weekly livides of the Journal of the American Medical Association is a page headed "Deaths." During one week recently there were so many that it required four columns of type to list the names of departed doctors.

years.

I feel encouraged. It was only a generation ago that the average doctor in active practice died at about furty. If this week's record is typical, I am convenced doctors are living longer than in the old days.

Now let us see what were the chief causes of death. Only a limited number of the obtuaries included this information. But, as recorded, the chief disease was of the heart and blood vessels. No game is reheduled for Saturday by Harding. The game at Zaneaville, previously announced for tomorrow night, will be played next Saturday. Efforts to bring Columbus here Saturday have been unsuccessful when it was learned that the local court was not available. Conch Complon last night completed a week of hard pravitee in preparation for tonght's frame. Has staring lineup probaly will be the some as that of last week. Rouch and Sarrett are being favored for the farward berths with Kellee and Me-Aninch at the games, Gillis is expected to do the olvot work although Tuttle, whose sprained ankle is back in condition, may get a chance to exhibit his stuff.

One thing is certain, however. There will he no rentition of the Galion defeat tonight. If Harding loses the game it will go down lighting. Lost wrik the bords let up in the last ball siloning Coach Paton's expers to avercome a large lead.

Harding's game is the outstanding on tonight's cand although two other local tamms will see action. One other home game is on the boards with the Central Junior engers meeting the John Simpson luniors of Mansfield at the Y. M. C. A. This context is plated to get underway at 7:30 o'clock. A preliminary is hooked between the main assembly hall and Room No. 21. Morgan and Pickerel will start at forward, Price at center and Chap and Lindser at guard for the locals.

St. Mary's is taking an tough opposition at Kenton tenin defeated the locals. The Saints have been resting since last week when they were defeated by a small margin at Postoria.

# Today in Marion Markets

Groceries, Produce, Meats, Grain, Livestock

A few price changes were refletered today in Marion markets, none, however, of a radical nature. As a whole the market was inclined to remain steady as the heavy week-end lusiness approached. A few more changes are prelicted for Saturday by retail merchants throughout the city.

The price of shallots dropped from eight couts a bunch to five

from eight cours a bunch to five cents for the only change in the fruit and regelable departments, the remainder of the changes being in

reusinder of the changes being in the meat division. Rolling beef went up one cent, now being quoted at 22 cents a pound in-stead of at 21. Chuck roast dropped two cents selling at 25 cents a pound Bacen also took the downward path for one cent, being quoted at 21 to 27 cents a pound.

Her version: What a disappointment Bob had been! Once he was always bright and cheery—well-groomed. hen something happened. Bob became careless. Seemed to lose his am-hition. Even his appear-ance was affected. Why. she was actually ashamed of him now!

His rersion: What had come over Mary? Two years ago he had been so much in love with her. But these days she was always so

cross. Her old-time youth and charm had fled. True, he'd slipped somewhat, himself. But, Mary. . . .

What a tragedy that constipation can wreck so much happiness! It begins with such little things—headaches, listlessness. But it eventually saps the strongest body, and may lead to serious disease. And all the while it could be so easily prevented—so surely relieved. Kellogg's ALL-BRAN is guaranteed to relieve constipation—to safely prevent it.

ALL-BRAN is effective and natural Bulk or roughage relieves constipation in a

natural way. ALL BRAN fur-nishes bulk in generous quantity because it is 100% bran. It carries moisture through the intestines, gently sweeping out poisons. Partbran products seldom con-tain sufficient bulk to be completely effective. Doctors recommend ALL BRAN because it is 100% bran— 100% effective.

Don't risk drugs!

ALL-BRAN brings lasting relief. Far better AIL-BRAN brings tasting rener. Far better than habit-forming pills whose dose must be constantly increased. ALL-BRAN is an appetizing cereal—delicious with milk or cream, fruits or honey added. Mix it with other cereals. Sprinkle into soups. Use it in cooking. Eat two tablespoonfuls daily—chronic assess with avery year. It will protect the cases, with every meal. It will protect the health of your family.

All grocers sell Kellogg's ALL-BRAN. Served at hotels, restaurants, on diners. Made by Kellogg in Battle Creek.

Kellugg's ALL-BRAN in sold with this definite guarantee: Ent it accord-by to directions. If it does not relieve constipution only, we will related the purchase price.

### Notice how much better they taste—

Get a sack of Pillsbury's Best Flour and use it-you'll discover something new about baking You'll find a delicate, unmistakably ticher flavor in everything you bake.

The food editors of leading magazines, women who have studied baking all their lives, say that this is scientifically correct. They say that flour has a lot to do with the flavor of baked foods. The secret is in the wheat that is used in milling the flour Pillsbury's Best is made only from certain kinds of carefully selected, full-flavored wheat. Use it for finer flavor in everything you bake!
